

## Project Development Phase Delivery of Sprint - 2

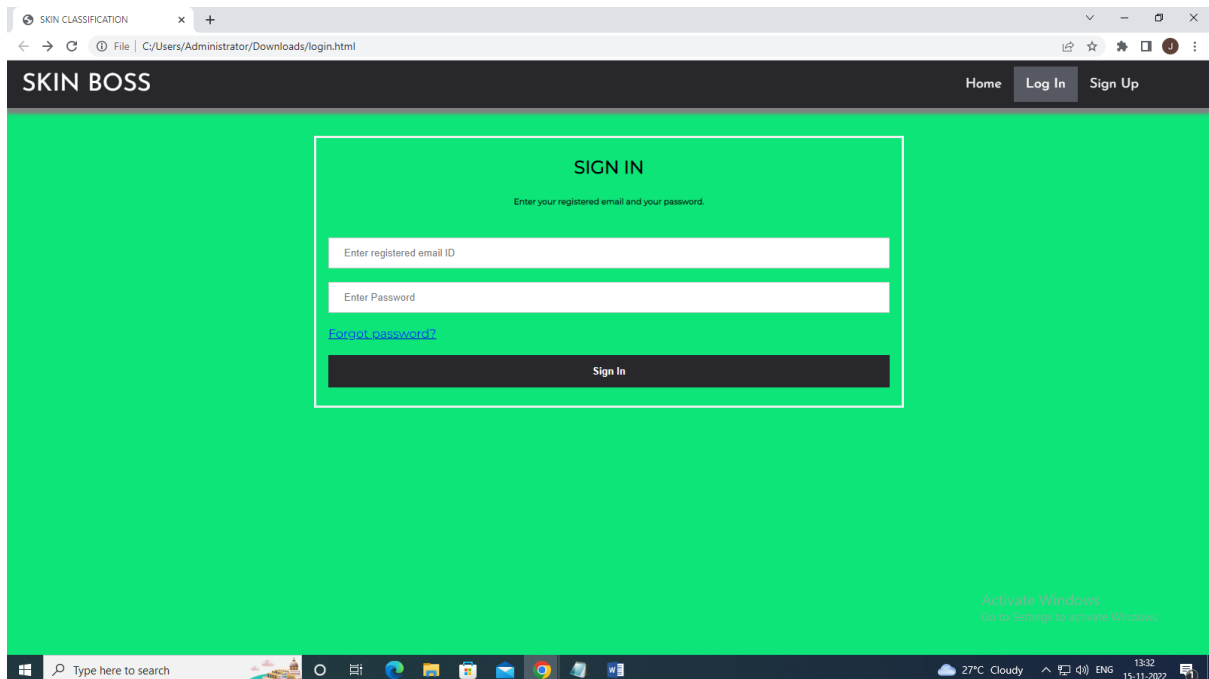

Date	15 November 2022
Team ID	PNT2022TMID01254
Project Name	AI-based localization of skin diseases with erthyma

In the sprint 2, we have developed the home page and login, logout page for the application

### Home page:

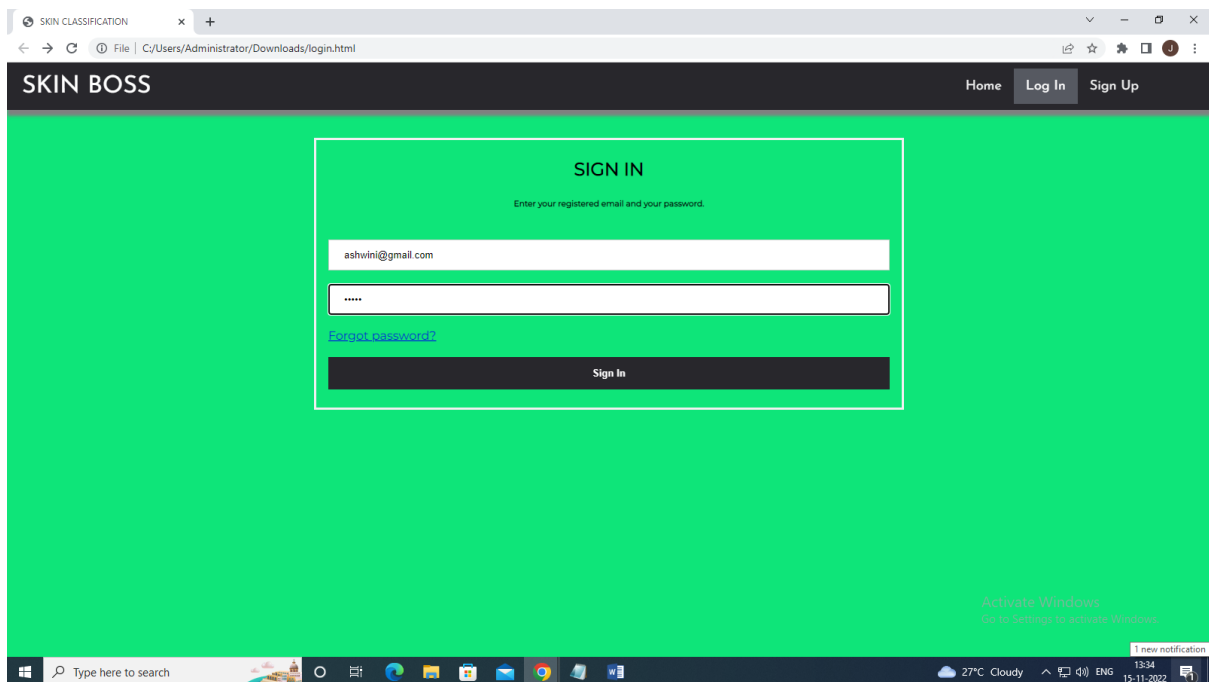

## Login page:

The screenshot shows a web browser window with the title "SKIN CLASSIFICATION". The address bar shows the file path "C:/Users/Administrator/Downloads/login.html". The website has a dark header with "SKIN BOSS" on the left and "Home", "Log In", and "Sign Up" on the right. The main content area has a green background. In the center, there is a white box titled "SIGN IN" with the instruction "Enter your registered email and your password." Below this are two input fields: "Enter registered email ID" and "Enter Password". A blue link "Forgot password?" is positioned below the password field. At the bottom of the white box is a black button labeled "Sign In". In the bottom right corner of the green area, there is a "Activate Windows" watermark with the text "Go to Settings to activate Windows." The Windows taskbar is visible at the bottom, showing the search bar, task view button, and several application icons. The system tray shows the date and time as "15-11-2022 13:32".

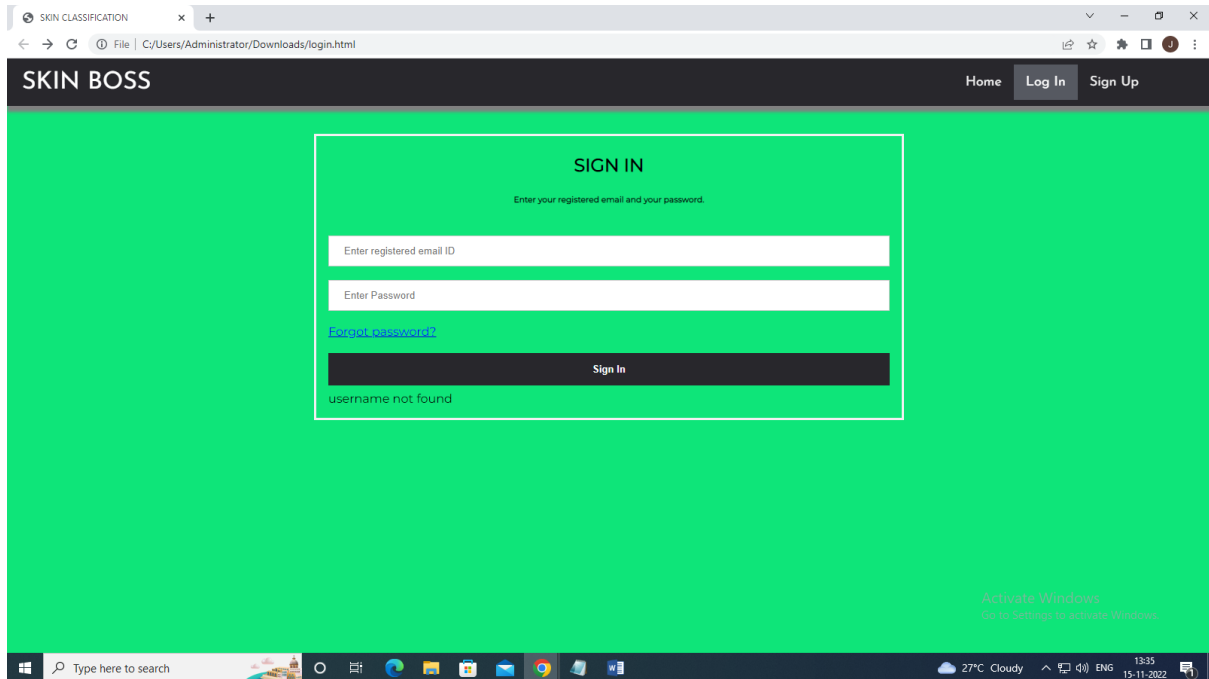

## Logging into the Account:

This screenshot shows the same "SIGN IN" form as the previous one, but with the email "ashvini@gmail.com" entered in the first field and masked characters "\*\*\*\*\*" in the second field. The "Sign In" button remains black. The rest of the page layout, including the header, footer, and Windows taskbar, is identical to the previous screenshot.

After entered the credentials correctly it will redirect to Prediction page for Analysis but is the credentials are not correct it will through message as "username not found"

# Username not found page:

# Logout page:
