

Project Development Phase Delivery of Sprint - 3

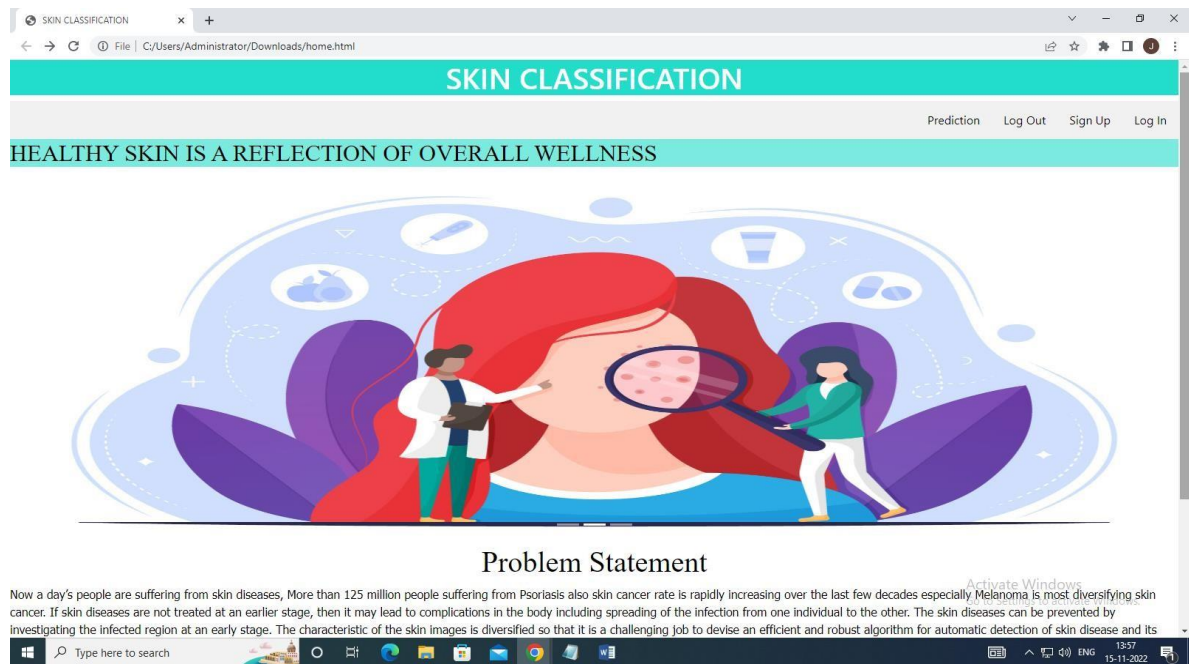

Date	16 November 2022
Team ID	PNT2022TMID01254
Project Name	AI-based localization of skin diseases with erythema

In the sprint 3, we have developed the prediction for the application

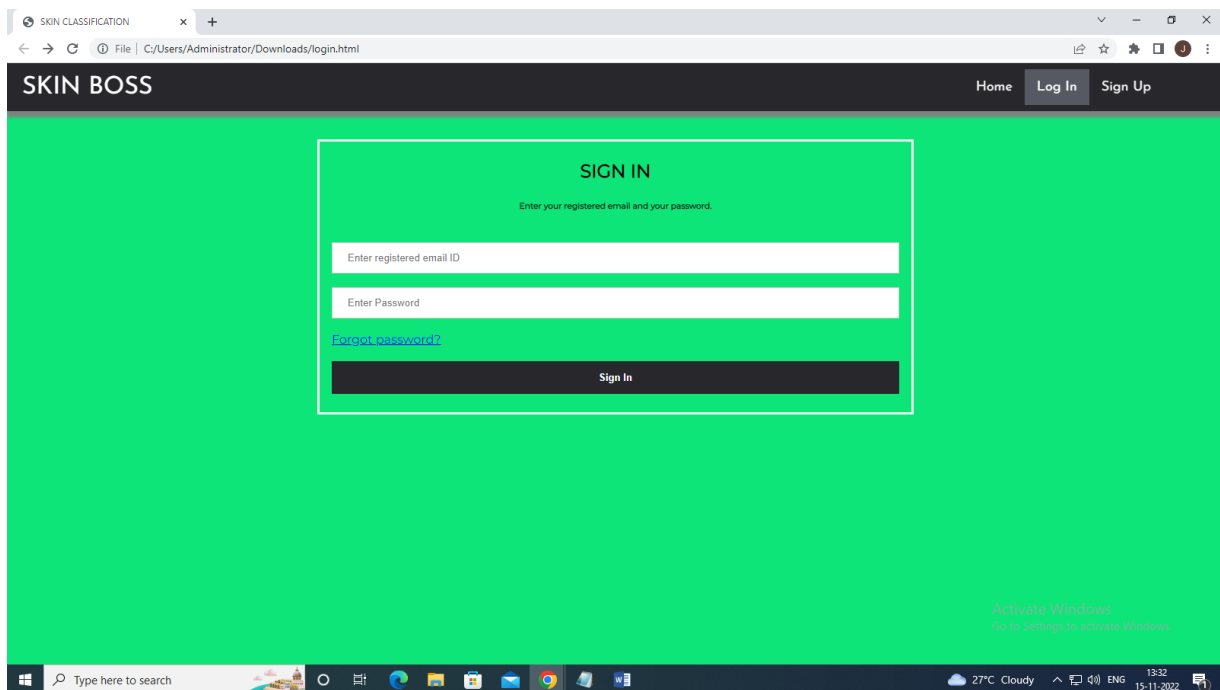

Prediction page:

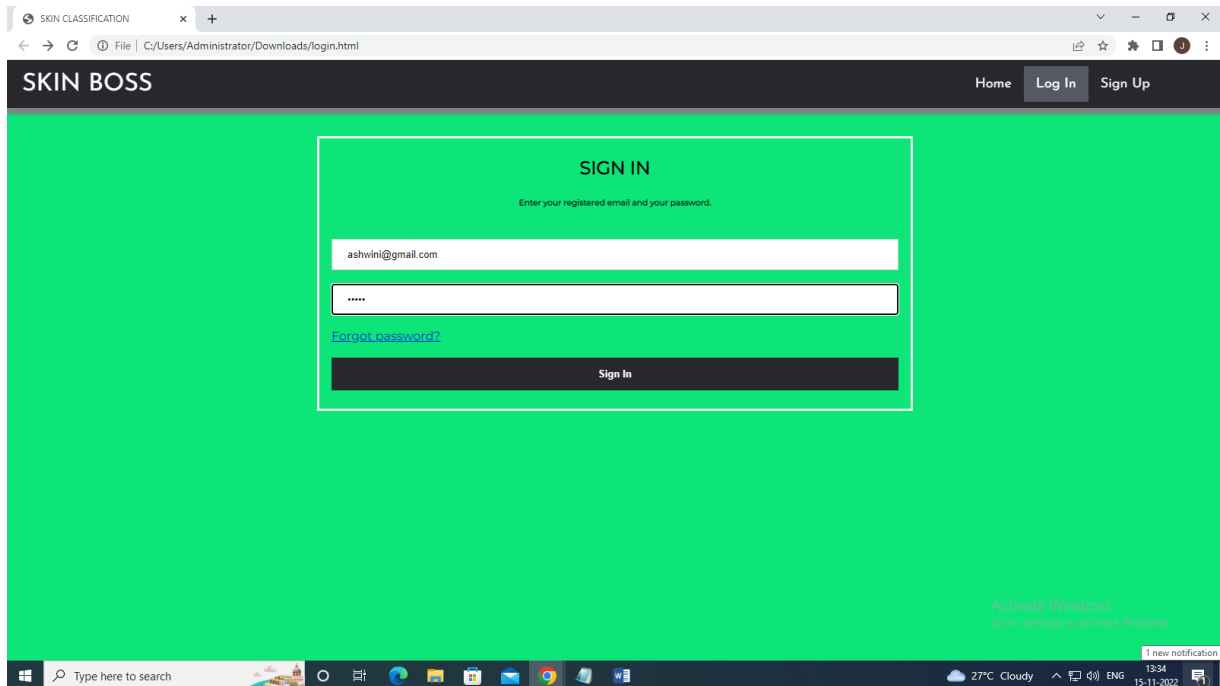

Step 1: In the first step our home page will open

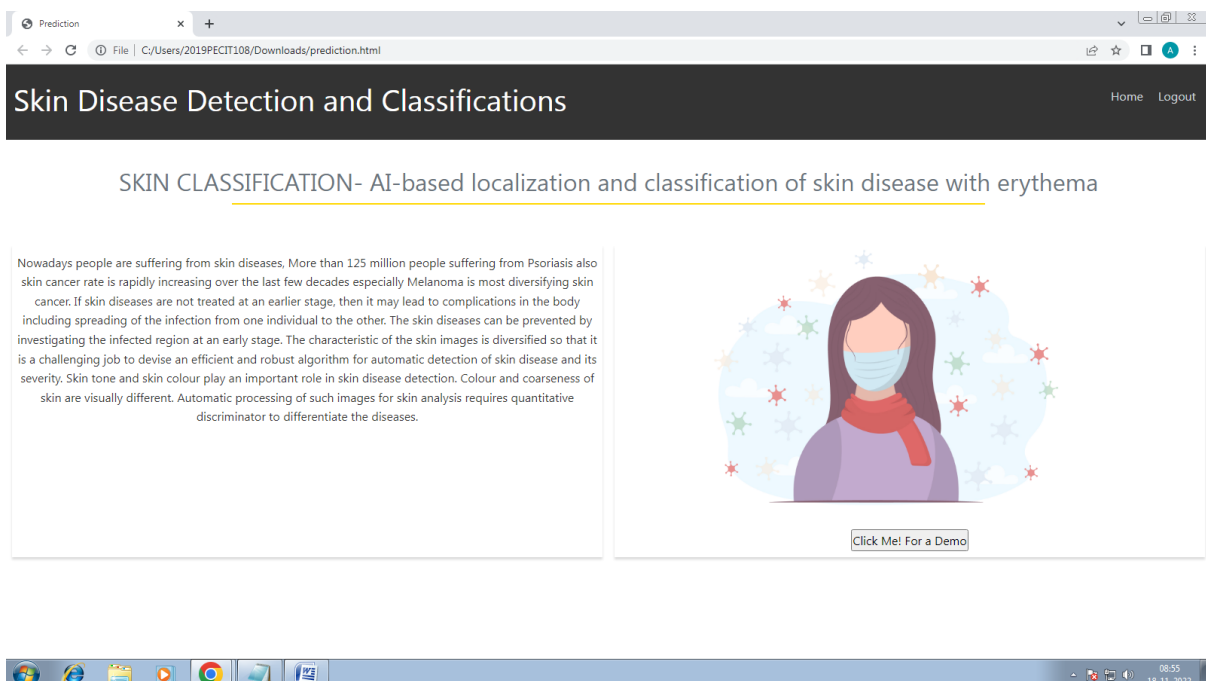

Step 2: After sign up need to enter the valid details to the login page

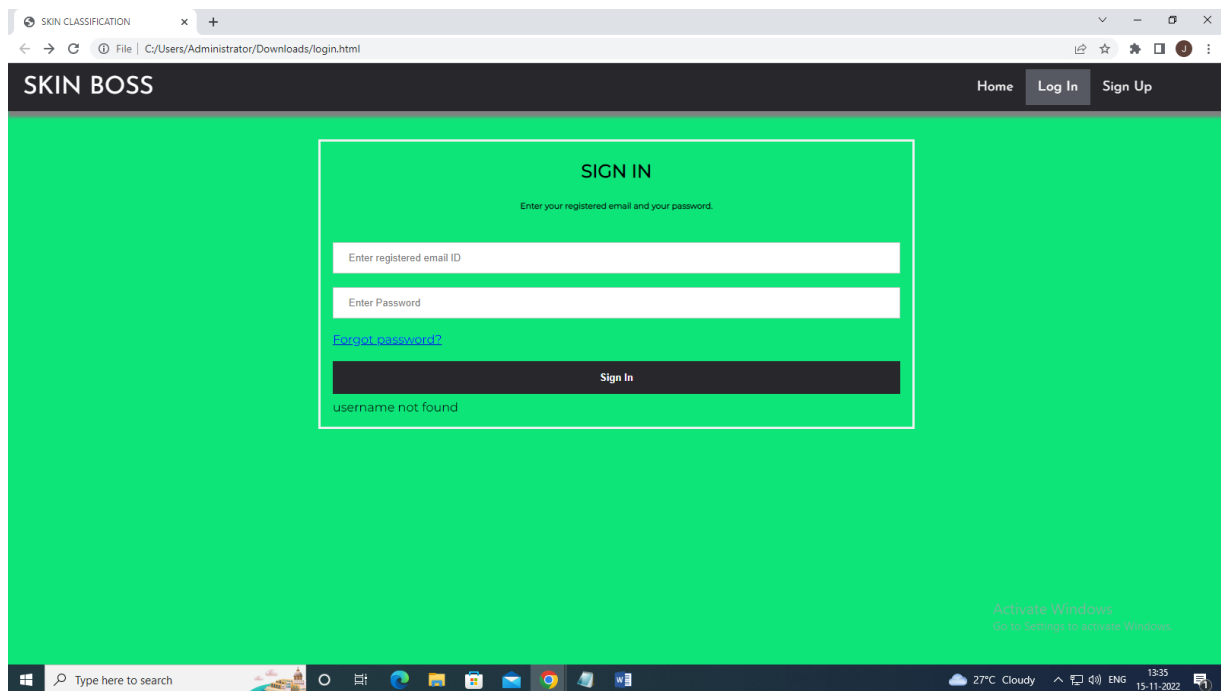

Step 3: After entered the credentials correctly it will redirect to Prediction page for Analysis but if credentials are not correct it will through message as “username not found”

Step 4: Prediction page will open

Step 5: If the credentials are invalid it will throw an error

Step 6: After completing the prediction it will logout
